Surface Channel Installation

Suspended Channel Installation

Recessed Channel Installation

Create a Cut Out in Ceiling

Insert power adapter then connect the DC wire of track channel with master driver.

Insert the C-clamp inside the ceiling .

Cover the ceiling screw area & push the track channel into the cut out.

Fix the C-clamp inside the ceiling with the help of screw .

Fix the screw directly with track channel in RCC / Wooden ceiling. Track Channel is Ready To Use

Trimless Channel Installation

Create a Cut Out in Ceiling

Push the overlapping wooden ply into the cut out.

Insert power adapter then connect the DC wire of track channel with master driver & push the track channel into the cut out.

Fix the overlapping wooden ply in the ceiling with the help of screw

Fix the channel inside the ceiling with the help of screw .

Cover the ceiling screw area with POP. & Fixture is ready to use.

Round Corner Track Upcoming

Multiple Combinations

Right angle

combination shape: square, rectangle
 D: Angle length 5-10cm
 L: Track length can be customized
 W: Track length can be customized

Round angle

combination shape: rounded square, rounded rectangle
 R: The radius of the outside diameter R size: 5cm, 10cm, 20cm, 30cm, 50cm, 9cm
 L: Track length can be customized
 W: Track length can be customized

Round magnetic track are available in different sizes free combination. Variety of shapes different installation way according to the installation environment and personal needs

Round track combination

Sizes of diameter D: 60cm, 90cm, 120cm, 200cm, 250cm, 300cm, 350cm.

Runway type track combination

Sizes of diameter D: 60cm, 90cm, 120cm, 200cm, 250cm, 300cm, 350cm.

Semicircular track combination

Sizes of diameter D:
60cm, 90cm, 120cm, 200cm, 250cm, 300cm, 350cm.

90 degree arc track combination

Sizes of diameter D:
60cm, 90cm, 120cm, 200cm, 250cm, 300cm, 350cm.
